*SEBI circular references (wherever applicable) in support of exposure limits of different types of asset classes in asset allocation shall be provided.

Rebalancing due to passive breach:

As per clause 3.5.4 of SEBI Master Circular dated June 27, 2024, the Scheme shall be considered to be replicating the index if the duration of the portfolio of the Scheme replicates the duration of the underlying index within a maximum permissible deviation of +/- 10%. Further, ETFs/Index Funds replicating a Constant Maturity index may invest in securities with residual maturity within +/-10% of maturity range of the index.

Post any transactions undertaken in the scheme portfolio, in order to meet the redemption and subscription obligations, it shall be ensured that replication of the portfolio with the index is maintained at all points of time, subject to permissible deviations.

The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible.

The annualized tracking difference averaged over one year period shall not exceed 1.25%. In case the average annualized tracking difference over one year period is higher than 1.25%, the same shall be brought to the notice of trustees with corrective actions taken by the AMC, if any.

- In case of change in constituents of the index due to periodic review, the portfolio of scheme shall be rebalanced within 7 calendar days.
- In case the rating of any security is downgraded to below the rating mandated in the index methodology (including downgrade to below investment grade), the portfolio be rebalanced within 30 calendar days.
- In case the rating of any security is downgraded to below investment grade, the said security may be segregated in accordance with clause 4.4 of SEBI Master Circular dated June 27, 2024, on "Creation of segregated portfolio in mutual fund schemes.

Rebalancing of deviation due to short term defensive consideration:

The above mentioned investment pattern is indicative and subject to the SEBI (MF) Regulations, the asset allocation pattern indicated above may vary from time to time, on account

of receipt of maturity proceeds, interest and/or receipt of subscription. As per SEBI Master Circular dated June 27, 2024 the Fund Manager, may deviate from the above investment pattern for short term period on defensive considerations. The same will be rebalanced within 7 Business Days and further action may be taken as specified under SEBI Circulars/ AMFI guidelines issued from time to time.

Tracking Error

The Scheme, in general, will hold all the securities that constitute the underlying Index in the same proportion as the index. Expectation is that, over a period of time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low. The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances such tracking error is not expected to exceed 1.25% p.a for daily 12 month rolling return. However, in case of events like, dividend received from underlying securities, and market volatility during rebalancing of the portfolio following the rebalancing of the Underlying Index, etc. or in abnormal market circumstances, the tracking error may exceed the above limits. Since the Scheme is an exchange traded fund, it will endeavor that at no point of time the Scheme will deviate from the index.

B. WHERE WILL THE SCHEME INVEST?

1. Government securities /TREPS on Government Securities
2. Money Market instruments

Detailed definition and applicable regulations/guidelines for each instrument shall be included in **Section II**.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The fund is a passively managed index fund which will employ an investment approach designed to track the performance of Nifty 8-13 yr G-Sec Index.

Pursuant to clause 3.5.4 of SEBI Master Circular dated June 27, 2024 replication of the Index by the Scheme shall be as follows

The Scheme shall be considered to be replicating the underlying index, provided:

- i. The duration of the portfolio of Scheme replicates the duration of the underlying index within a maximum permissible deviation of +/- 10%.
- ii. ETFs/Index Funds replicating a Constant Maturity index may invest in securities with residual maturity within +/-10% of maturity range of the index

The Scheme will invest in Government Securities which are constituents of the underlying Index viz. Nifty 8-13 yr G-Sec Index. Based on the availability of issuances, it is expected that the portfolio allocation could be different than that of underlying index allocation and could result in Tracking Error. That said broad risk parameters of the portfolio of the Scheme such as credit rating, weighted average YTM, weighted average maturity, asset allocation etc. are expected to be similar to the Underlying Index.

Though every endeavour will be made to achieve the objective of the Scheme, the AMC/Sponsors/Trustee does not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.

Tracking Error

Tracking error is defined as the standard deviation of the difference between the daily returns of the Underlying Index and the NAV of the Scheme. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weights as the securities have in the Underlying Index. However, deviations from the stated index replication may occur due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Index including changes to the constituents, regulatory policies, ability of the Fund Manager to closely replicate the Underlying Index, delay in purchase or non-availability of underlying securities forming part of the index etc. The Scheme's returns may therefore deviate from those of its Underlying Index. Tracking Error may arise due to the following reasons:

Tracking error could be the result of a variety of factors including but not limited to:

- Delay in the purchase or non- availability of securities which are part of the Index
- Delay in liquidation of bonds which have been removed by the Index
- Due to timing of transactions either on RFQ platforms or in open market
- Due to investment in out of index investments such as Government securities, Repo in Government securities and TREPs
- Due to over-weight / under-weight investment in bonds of issuers at ISIN level which are part of the Index
- Due to mismatch in the weight of the issuers forming part of the Index and the Scheme throughout life of the Scheme.
- Change in asset allocation between the Index and the Scheme in the last year of the Scheme.
- Difference in valuation of underlying bonds by the Index Provider and AMC's valuation providers.
- Available funds may not be invested at all times as the Scheme may keep a portion of the funds in cash to meet Redemptions, or corporate actions or otherwise
- Fees and expenses of the Scheme.
- The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities.
- Interest/Payout of Income Distribution cum capital withdrawal Option.
- Changes in the constituents of the underlying Index. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Index but market conditions may not offer an opportunity to rebalance its portfolio to match the Index and such delay may affect the NAV of the Scheme.

While the intent of the scheme is to track the performance of the underlying index by investing in the bond forming part of the index, due to issues pertaining to liquidity of the debt market in India, the SEBI has prescribed guidelines within which the passive scheme may manage the allocation in the bonds and issuers which may or may not form part of the index, with same or different weightages, in order to decrease the risk replication of the underlying index within the

allowed range. This will result in fund portfolio different from the index portfolio with difference in the performance and volatility of the scheme.

RISK CONTROL

The investment objective of the scheme is to generate returns, before expenses, that are commensurate with the performance of the Nifty 8-13 yr G-Sec Index, subject to tracking error. The index is tracked on a regular basis and changes to the constituent's or their weights, if any, are replicated in the underlying portfolio with the purpose of minimizing tracking error.

ETF being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus, there is no additional element of volatility or stock concentration on account of fund manager decisions. The fund manager would endeavor to keep cash levels at the minimal to control tracking error.

Policy for Investment decisions

The investment policy of the AMC has been determined by the Investment Committee ("IC") which has been ratified by the Boards of the AMC and Trustee. At the strategic level, the broad investment philosophy of the AMC and the authorized exposure limits are spelt out in the Investment Policy of the AMC. During trading hours, the Fund Managers have the discretion to take investment decisions for the Scheme within the limits defined in the Investment Policy, these decisions and the reasons thereof are communicated to the CEO for post facto approval.

The designated Fund Manager(s) of the Scheme will be responsible for taking day-to-day investment decisions and will inter-alia be responsible for asset allocation, security selection and timing of investment decisions.

Portfolio Turnover Policy

Portfolio Turnover measures the volume of trading that occurs in a Scheme's portfolio during a given time period. The Scheme is an open-ended Exchange Traded Fund and it is expected that there may be a number of subscriptions and repurchases on a daily basis through Stock Exchange(s) or Market Makers and Large Investors. Generally, turnover will depend upon the extent of purchase and redemption of units and the need to rebalance the portfolio on account of change in the composition, if any, and corporate actions of securities included in Nifty 8-13 yr G-Sec Index. However, it will be the endeavor of the Fund Manager to maintain an optimal portfolio turnover rate commensurate with the investment objective of the Scheme and the purchase/ redemption transactions on an ongoing basis in the Scheme.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Benchmark (Total Returns Index): Nifty 8-13 yr G-Sec Total Returns Index

Rationale for adoption of benchmark:

The Trustees have adopted Nifty 8-13 yr G-Sec Index as the benchmark index.

As per its investment objective, the investment would primarily be in Securities which are constituents of the benchmark index. Thus, the composition of the aforesaid benchmark index is such that it is most suited for comparing performance of the Scheme.

Part III- OTHER DETAILS

A. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

NAV of Units under the Options there under can be calculated as shown below:

NAV = (Market or Fair Value of Scheme's investments + Current assets including Accrued Income - Current Liabilities and provisions including accrued expenses)

No. of Units outstanding under the Scheme/Option.

The NAV, the sale and repurchase prices of the Units will be calculated and announced at the close of each working day. The NAVs of the Scheme will be computed and units will be allotted upto 4 decimals.

Computation of NAV will be done after taking into account Income Distribution Cum Capital Withdrawal paid, if any, and the distribution tax thereon, if applicable.

The valuation of the Schemes' assets and calculation of the Schemes' NAVs shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

Illustration on Computation of NAV:

If the net assets of the Scheme are Rs.10,65,44,345.34 and units outstanding are 1,00,00,000 then the NAV per unit will be computed as follows:

$10,65,44,345.34 / 1,00,00,000 = \text{Rs. } 10.6544 \text{ p.u. (rounded off to four decimals)}$

Methodology for calculation of sale and re-purchase price of the units of mutual fund scheme:

- Ongoing Price for subscription (purchase)/ switch-in (from other schemes/ plans of the mutual fund) by investors. (This is the price you need to pay for purchase/ switch-in):

The Sale Price for a valid purchase will be the Applicable NAV.

i.e. Sale Price = Applicable NAV

For a valid purchase request of Rs. 10,000 where the applicable NAV is Rs. 11.1234, the units allotted will be:

$$= \frac{10,000 \text{ (i.e. purchase amount)}}{11.1234 \text{ (i.e. applicable NAV)}}$$

$$= 899.0060 \text{ units (rounded to four decimals)}$$

Transaction charges and other charges/expenses, if any, borne by the investors have not been considered in the above illustration.

- Ongoing Price for redemption (sale)/ switch-outs (to other schemes/plans of the mutual fund) by investors. (This is the price you will receive for redemptions/ switch-outs):

The Repurchase Price for a valid repurchase will be the applicable NAV reduced by any exit load (say 1%).

i.e. applicable NAV - (applicable NAV X applicable exit load).

For a valid repurchase request where the applicable NAV is Rs. 12.1234, the repurchase price will be:

$$= 12.1234 - (12.1234 \times 1.00\%)$$

$$= 12.1234 - 0.1212$$

$$= \text{Rs. } 12.0022$$

Therefore, for a repurchase of 899.006 units, the proceeds received by the investor will be -

$$= 899.006 \text{ (units)} \times 12.0022 \text{ (Repurchase price)}$$

$$= \text{Rs. } 10,790.0200 \text{ (rounded to four decimals)}$$

Transaction charges and other charges/expenses, if any, borne by the investors have not been considered in the above illustration.

The Mutual Fund may charge the load within the stipulated limit of 5% and without any discrimination to any specific group. The Repurchase Price however, will not be lower than 95% of the NAV.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI.

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc. NFO expenses were borne by the AMC. No NFO expenses were charged to the Scheme.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 1% of the daily net assets of the scheme will be charged to the scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund <https://www.miraeassetmf.co.in/downloads/statutory-disclosure/total-expense-ratio>

Expense Head	% p.a. of daily Net Assets* (Estimated p.a.)
Investment Management & Advisory Fee	Upto 1.00%
Audit fees/fees and expenses of trustees	
Custodial Fees	
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants	
Marketing & Selling Expenses including Agents Commission and statutory advertisement	
Costs related to investor communications	
Costs of fund transfer from location to location	
Cost towards investor education & awareness - 1 bps	
Brokerage & transaction cost pertaining to distribution of units	
Goods & Services Tax on expenses other than investment and advisory fees	
Goods & Services Tax on brokerage and transaction cost	
Other Expenses (to be specified as per Reg 52 of SEBI MF Regulations) *	
Maximum Total expenses ratio (TER) permissible under Regulation 52 (6) (c)	

*Other expenses: Any other expenses which are directly attributable to the Scheme, may be charged with approval of the Trustee within the overall limits as specified in the Regulations except those expenses which are specifically prohibited.

For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund.

The purpose of the above table is to assist the investor in understanding the various costs & expenses that the investor in the Scheme will bear directly or indirectly. These estimates have been made in good faith as per the information available to the AMC and the above expenses (including investment management and advisory fees) are subject to inter-se change and may increase/decrease as per actual and/or any change in the Regulations, as amended from time to time.

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of the Asset Management Companies (AMC), its associate, sponsor, trustee or any other entity through any route.

In addition to the limits as specified in Regulation 52(6) of SEBI (Mutual Funds) Regulations 1996 [‘SEBI Regulations’] or the Total Recurring Expenses (Total Expense Limit) as specified above, the following costs or expenses may be charged to the scheme namely: -

- a. GST payable on investment and advisory service fees (‘AMC fees’) charged by Mirae Asset Investment Managers (India) Private Limited (‘Mirae Asset AMC’);

Within the Total Expense Limit chargeable to the Scheme, following will be charged to the Scheme:

- GST on other than investment and advisory fees, if any, (including on brokerage and transaction costs on execution of trades) shall be borne by the Scheme;
 - Investor education and awareness initiative fees of 1 basis point on daily net assets of respective Scheme.
- b. Brokerage and transaction cost incurred for the purpose of execution shall be charged to the schemes (a) up to 12 bps and 5 bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage & transaction costs, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996

The current expense ratios will be updated on the AMC website <https://miraeassetmf.co.in/downloads/regulatory> at least 3 working days prior to the effective date of the change.

Further, the notice of change in base TER (i.e. TER excluding additional expenses provided in Regulation 52(6A) (b) and 52(6A)(c) of SEBI (Mutual Funds) Regulations, 1996) in comparison to previous base TER charged to the scheme will be communicated to investors of the scheme through notice via email or SMS at least three working days prior to effecting such change.

However, any decrease in TER due to decrease in applicable limits as prescribed in Regulation 52 (6) (i.e. due to increase in daily net assets of the scheme) would not require issuance of any prior notice to the investors.

The above change in the base TER in comparison to previous base TER charged to the scheme shall be intimated to the Board of Directors of AMC along with the rationale recorded in writing.

The changes in TER shall also be placed before the Trustees on quarterly basis along with rationale for such changes.

Illustration of impact of expense ratio on scheme’s returns (by providing simple example)

Particulars		NAV
Opening NAV per unit	A	10.000
Gross Scheme Returns @ 8.75%	B	0.875
Expense Ratio @ 1.00 % p.a.	$C = (A \times 1.00\%)$	0.100
Closing NAV per unit	$D = A + B - C$	10.775
Net 1 Year Return	$E/A - 1$	7.75%

*Distribution/Brokerage expense is not levied in ETF

The above calculation is provided to illustrate the impact of expenses on the scheme returns and should not be construed as indicative Expense Ratio, yield or return.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (<https://www.miraeassetmf.co.in/>) or may call at '1800 2090 777' or your distributor.

Type of Load	Load chargeable (as %age of NAV)
Exit	<ul style="list-style-type: none"> • For investors transacting directly with the AMC: No Exit load will be levied on redemptions made by Market Maker / Large Investors directly with the AMC. • For investors transacting on the exchange: Not Applicable.

Investors other than Market Makers can redeem units directly with the Fund for less than Creation Unit size at approximately indicative NAV based prices (along with applicable charges and execution variations) during the Ongoing Offer for units without any exit load if:

- Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or
- No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or
- Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days.

Such instances shall be tracked by the AMC on an ongoing basis and in case if any of the above mentioned scenario arises, the same shall be disclosed on the website of the Mutual Fund.

For any change in exit load, AMC will issue an addendum and display it on the website/Investor Service Centres.

The Mutual Fund may charge exit load within the stipulated limit of 5% and without any discrimination to any specific group. The Repurchase Price however, will not be lower than 95% of the NAV.

The Trustee reserves the right to modify/alter the load structure and may decide to charge on the Units with prospective effect, subject to the maximum limits as prescribed under the SEBI Regulations. At the time of changing the load structure, the AMC shall take the following steps:

- Arrangements shall be made to display the changes/modifications in the SID in the form of a notice in all the Mirae Asset ISCs' and distributors' offices and on the website of the AMC.
- The notice-cum-addendum detailing the changes shall be attached to SIDs and Key Information Memoranda. The addendum will be circulated to all the distributors so that the same can be attached to all SIDs and Key Information Memoranda already in stock.
- The introduction of the exit load along with the details shall be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load.
- A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated.
- Any other measures which the mutual funds may feel necessary.

The AMC may change the load from time to time and in case of an exit/repurchase load this may be linked to the period of holding. It may be noted that any such change in the load structure shall be applicable on prospective investment only. The exit load (net off GST, if any, payable in respect of the same) shall be credited to the Scheme of the Fund.

The distributors should disclose all the commissions (in the form of trail commission or any other mode) payable to them for the different competing schemes of various mutual funds from amongst which the scheme is being recommended to the investor.

Section II

I. Introduction

A. Definitions/interpretation

Please refer the definitions/interpretation as disclosed under:
<https://www.miraeassetmf.co.in/downloads/statutory-disclosure/other-disclosure/offer-documents-data>

B. Risk factors

Standard Risk Factors:

- Investment in Mutual Fund units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal

- As the price / value / interest rate of the securities in which the Scheme invests fluctuates, the value of your investment in the scheme can go up or down depending on various factors and forces affecting capital markets and money markets.
- Past performance of the Sponsor/ AMC/ Mutual Fund does not guarantee the future performance of the Scheme.
- The name of the Scheme does not in any manner indicate its quality or its future prospects and returns.
- The Sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 1 lakh made by it towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme.

Scheme Specific Risk Factors

- **Risk Factors associated with Exchange Traded Schemes**

The Scheme is subject to the specific risks that may adversely affect the Scheme's NAV, return and / or ability to meet its investment objective. The specific risk factors related to the Scheme include, but are not limited to the following:

Passive Fund Investment Risks

1. Market Risk

The NAV of the Scheme will react to the securities market movements. The Investor may lose money over short or long periods due to fluctuation in the Scheme's NAV in response to factors such as economic, political, social instability or diplomatic developments, changes in interest rates and perceived trends in stock prices, market movements and over longer periods during market downturns. Investments may be adversely affected by the possibility of expropriation or confiscatory taxation, imposition of withholding taxes on Dividend or interest payments, limitations on the removal of funds or other assets of the Scheme. The Scheme may not be able to immediately sell certain types of illiquid Securities. The purchase price and subsequent valuation of restricted and illiquid Securities may reflect a discount, which may be significant, from the market price of comparable Securities for which a liquid market exists.

2. Market Trading Risks

1. **Absence of prior Active Market:** Although the Scheme is listed on NSE/BSE, there can be no assurance that an active secondary market will develop or be maintained. Hence there would be time when trading in the Units of the Scheme would be infrequent.
2. **Trading in Units may be Halted:** Trading in the Units of the Scheme on NSE/BSE may be halted because of market conditions or for reasons that in view of NSE/BSE or SEBI, trading in the Units of the Scheme are not advisable. In addition, trading of the Units of the Scheme are subject to trading halts caused by extraordinary market volatility and pursuant to NSE and SEBI 'circuit filter' rules. There can be no assurance that the requirements of NSE/BSE necessary to maintain the listing of the Units of the Scheme will continue to be met or will remain unchanged.
3. **Lack of Market Liquidity:** The Scheme may not be able to immediately sell certain

types of illiquid Securities. The purchase price and subsequent valuation of restricted and illiquid Securities may reflect a discount, which may be significant, from the market price of comparable Securities for which a liquid market exists.

4. Units of the Scheme May Trade at prices Other than NAV: The Units of the Scheme may trade above or below their NAV. The NAV of the Scheme will fluctuate with changes in the market value of the holdings of the Scheme. The trading prices of the Units of the Scheme will fluctuate in accordance with changes in their NAV as well as market supply and demand for the Units of the Scheme. However, given that Units of the Scheme can be created and Redeemed in Creation Units directly with the Fund, it is expected that large discounts or premiums to the NAV of Units of the Scheme will not sustain due to arbitrage opportunity available.

5. Regulatory Risk: Any changes in trading regulations by NSE/BSE or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/discount to NAV.

6. Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the Securities in the Scheme are reinvested. The additional income from reinvestment is the “interest on interest” component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

7. Risk of Substantial Redemptions: Substantial Redemptions of Units within a limited period of time could require the Scheme to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of both the Units being Redeemed and that of the outstanding Units of the Scheme. The risk of a substantial Redemption of the Units may be exacerbated where an investment is made in the Scheme as part of a structured product with a fixed life and where such structured products utilize hedging techniques. Please also refer Statement of Additional Information for additional details.

8. Regardless of the period of time in which Redemptions occur, the resulting reduction in the NAV of the Scheme could also make it more difficult for the Scheme to generate profits or recover losses. The Trustee, in the general interest of the Unit holders of the Scheme offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be Redeemed on any Working Day depending on the total “Saleable Underlying Stock” available with the Fund.

3. Redemption Risk

Investors may note that even though the Scheme is an open-ended Scheme, the Scheme would ordinarily repurchase Units in Creation Unit Size from Market Makers/large investors. Thus Unit holdings less than creation unit size for Market Makers and Large investors can only be sold through the secondary market on the Exchange unless any of the scenarios mentioned below have occurred:

- i. Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or
- ii. No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or
- iii. Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days.

4. Asset Class Risk

The returns from the types of Securities in which the Scheme invests may under perform returns of general Securities markets or different asset classes. Different types of Securities tend to go through cycles of out-performance and under-performance in comparison of Securities markets.

5. Passive Investments

As the Scheme proposes to invest not less than 95% of the net assets in the securities of the underlying Index, the Scheme will not be actively managed. The Scheme which is linked to the underlying index may be affected by a general decline in the Indian markets relating to its underlying index. The Scheme as per its investment objective invests in Securities which are constituents of its underlying index regardless of its investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

The index methodology may be changed by the index provider in future due to several externalities. The change in the methodology of the index may affect the future portfolio and/or performance of the index and the scheme.

6. Tracking Error and Tracking Difference Risk

The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance, changes to the underlying index and regulatory restrictions, which may result in Tracking Error with the underlying index. The Scheme's returns may therefore deviate from those of the underlying index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the Scheme. Tracking Difference" is the annualized difference of daily returns between the Index and the NAV of the scheme (difference between fund return and the index return). Tracking Error and Tracking difference may arise including but not limited to the following reasons:

- Expenditure incurred by the Fund.
- Available funds may not be invested at all times as the Scheme may keep a portion of the funds in cash to meet Redemptions, for corporate actions or otherwise.
- Securities trading may halt temporarily due to circuit filters.
- Corporate actions such as debenture or warrant conversion, rights issuances, mergers, change in constituents etc.
- Rounding-off of the quantity of shares in the underlying index.
- Dividend payout.
- Index providers undertake a periodical review of the scrips that comprise the underlying index and may either drop or include new scrips. In such an event, the Fund will try to reallocate its portfolio but the available investment/reinvestment opportunity may not permit absolute mirroring immediately.

SEBI Regulations (if any) may impose restrictions on the investment and/or divestment activities of the Scheme Such restrictions are typically outside the control of the AMC and may cause or exacerbate the Tracking Error.

It will be the endeavor of the fund manager to keep the tracking error as low as possible. However, in case of events like, dividend received from underlying securities, rights issue from underlying securities, and market volatility during rebalancing of the portfolio following the

rebalancing of the underlying index, etc. or in abnormal market circumstances may result in tracking error. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Index.

Trade Execution Risk on RFQ Platforms:

Current SEBI regulations mandates Mutual Funds to execute certain % of their monthly trading volume in corporate bonds on RFQ platforms. RFQ platforms are peer-to-peer platforms and are still in development stage. Therefore, they have lower level of secondary market liquidity. Mandatory execution of trades on RFQ among MFs may hamper trade execution efficiency during periods of heavy outflows.

Risks Associated with Debt & Money Market Instruments

- **Price-Risk or Interest-Rate Risk:** Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.
- **Credit Risk:** In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government securities, there is no credit risk to that extent.
- **Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.
- **Reinvestment Risk:** Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.
- **Pre-payment Risk:** Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.
- **Spread Risk:** In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.
- **Concentration Risk:** The Scheme portfolio may have higher exposure to a single sector, subject to maximum of 20% of net assets, depending upon availability of issuances in the market at the

time of investment, resulting in higher concentration risk. Any change in government policy / businesses environment relevant to the sector may have an adverse impact on the portfolio.

- Different types of securities in which the scheme would invest as given in the SID carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively more risky than bonds, which are AAA rated.

Risk factors associated with processing of transaction through Stock Exchange Mechanism

The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other recognised stock exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing/settlement, etc. upon which the Fund has no control. However, units of the Scheme can only be subscribed in demat mode. Moreover, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized stock exchange(s).

Risks associated with segregated portfolio

- 1) Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.
- 2) Security comprises of segregated portfolio may not realise any value.
- 3) Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Risks associated with investing in Tri Party Repo through CCIL (TREPS):

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus, reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honor his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus, the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

Risk associated with Government securities:

Investment in Government securities like all other debt instruments is subject to price and interest rate risk. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in prices is a function of the existing coupon, days to maturity and the increase or decrease in interest rates. Price-risk is not unique to Government securities but is true for all fixed income securities. Despite a high degree of liquidity in comparison with other debt instruments on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through.

Risk Associated while transacting through Email:

The AMC allows investors for transacting in mutual fund units through email. This may involve certain risks which the investor should carefully consider. Investors should note that email based instructions are inherently vulnerable to risks such as interception, unauthorised access, phishing, spoofing, failed delivery and unintended transmission and should ensure appropriate safeguards are in when place when using such mode of transaction. The AMC does not accept any responsibility or liability for any loss, damages or inconvenience caused due to errors, delays, non - receipt or unauthorised access associated with transacting through email.

C. Risk mitigation strategies

The risk control process involves identifying & measuring the risk through various risk measurement tools. The Fund has identified following risks of investing in fixed income securities and designed risk management strategies, which are embedded in the investment process to manage such risks

Risk & Description specific to the Scheme	Risk mitigants / Management Strategy
Market/Volatility Risk: Risk arising due to price fluctuations and volatility, having material impact on the overall returns of the Scheme.	The Scheme, being a Constant Maturity ETF structure, is expected to follow an investment strategy in a passive manner in order to maintain duration of the fund. Based on that, we expect to mitigate intermittent price volatility in the underlying assets.
Credit risk: Risk associated with repayment of investment	The Scheme intends to invest in Government Securities issued and serviced by Reserve Bank of India (RBI). G-Secs are eligible for SLR investment
Interest rate risk: Price volatility due to movement in interest rates	The Scheme, being a Constant Maturity ETF structure, is expected to follow an investment strategy in a passive manner in order to maintain duration of the fund. Based on that, we expect to mitigate intermittent price volatility in the underlying assets.
Event risk: Price risk due to company or sector specific event	The Scheme intends to invest in G-Sec. These are perceived to be relatively safe due their government ownership.
Performance risk: Risk arising due to change in factors affecting the market	The scheme is passively managed

Risk Management & Liquidity Management tools:

Potential Risk Matrix (PRC) & Risk-o-meter: Investors are requested to review this scheme's Potential Risk Matrix (PRC) to understand the maximum risk that this scheme will run as per design and & Risk-o-meter to understand periodical measurement of that risk on a regular basis. Investors are suggested to read about various disclosures under the section "PERIODIC DISCLOSURES" pertaining to "Potential Risk Class Matrix" & "Product Labeling and Risk-o-meter" to understand in detail the disclosure frequency and remedial measures in case of breaches in the boundaries

Mandatory Liquidity requirement: The scheme adopts the Liquidity Risk Management framework mandated by SEBI and AMFI which helps estimates liquidity requirement by determining liquidity risk arising from the liability side and tries to covers all potential liquidity risk scenarios up to agreed confidence interval and has mandated remedial measures both for managing the risk on an ongoing basis (LRaR & LCRaR) as well as action plan in case there is a difference between actual outcome and projected outcome. Investors can refer to the circular 135/BP/93/ 2021-22 dated July 24, 2021 and subsequent circulars for detail understanding on the Liquidity Risk Management Framework.

Further Investment manager also evaluates and monitors the Asset Liability Mismatch (ALM) which addresses the gap in the estimated potential liquidity requirement over a 90-day period and schemes investment / assets liquidity to meet the potential requirement and best ensures that scheme has necessary liquidity to meets its liability obligations

Stress testing the scheme portfolio: The investment manager periodically stress tests the scheme portfolio to address the asset side risk from an Interest Rate, Credit and Liquidity Risk perspective at an aggregate portfolio level and evaluate the stress in terms of its impact on the NAV of the scheme. The stress test is performed using the methodology and periodicity as mandated by AMFI in consultation to SEBI.

II. Information about the scheme:

A. Where will the scheme invest

Investment in Government Securities(G-Sec's): The Scheme would invest in Government Securities representing the G-Sec comprising Nifty 8-13 yr G-Sec Index and endeavor to track the benchmark index.

Investment in money market instruments: The Scheme may also invest in money market instruments, in compliance with Regulations. Money Market Instruments will include only treasury bills and government securities having a residual maturity up to one year, Tri-party Repo on government securities or T-bills and any other like instruments as specified by the Reserve Bank of India from time to time. The Scheme will not invest in Commercial Paper, Certificate of Deposits, Bill – rediscounting (BRDS).

Debt & Money Market Instruments:

The Scheme will invest in debt and money market instruments. It retains the flexibility to invest across all the securities in the debt and money markets.

Debt securities and Money Market Instruments will include but will not be limited to:

a. Securities created and issued by the Central and State Governments as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).

b. Securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).

c. Debt securities of domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee.

d. Corporate debt (of both public and private sector undertakings).

e. "money market instruments" includes commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, and any other like instruments as specified by the Reserve Bank of India from time to time; subject to regulatory approvals where applicable.

f. Certificate of Deposits (CDs).

g. Commercial Paper (CPs). A part of the net assets may be invested in the Collateralized Borrowing & Lending Obligations (CBLO) or in an alternative investment as may be provided by RBI to meet the liquidity requirements.

h. The non-convertible part of convertible securities.

i. Any other domestic fixed income securities as permitted by SEBI / RBI from time to time.

j. Any other instruments/securities, which in the opinion of the fund manager would suit the investment objective of the scheme subject to compliance with extant Regulations.

The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency authorized to carry out such activity, such as CRISIL, ICRA, CARE, FITCH, etc. The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placement, rights offer or negotiated deals.

The Scheme shall not enter into any repurchase and reverse repurchase obligations in all securities held by it. The scheme does not intend to invest into any credit default swaps.

Overview of Debt Markets in India

Indian fixed income market, one of the largest and most developed in South Asia, is well integrated with the global financial markets. Screen based order matching system developed by the Reserve Bank of India (RBI) for trading in government securities, straight through settlement system for the same, settlements guaranteed by the Clearing Corporation of India and innovative instruments like TREPS have contributed in reducing the settlement risk and increasing the confidence level of the market participants.

The RBI reviews the monetary policy six times a year giving the guidance to the market on direction of interest rate movement, liquidity and credit expansion. The central bank has been operating as an independent authority, formulating the policies to maintain price stability and adequate liquidity. Bonds are traded in dematerialized form. Credit rating agencies have been playing an important role in the market and are an important source of information to manage the credit risk.

Government (Central and State) is the largest issuer of debt in the market. Public sector enterprises, quasi government bodies and private sector companies are other issuers. Insurance companies, provident funds, banks, mutual funds, financial institutions, corporates and FPIs are major investors in the market. Government loans are available up to 40 years maturity. Variety of instruments available for investments including plain vanilla bonds, floating rate bonds, money market instruments, structured obligations and interest rate derivatives make it possible to manage the interest rate risk effectively.

Indicative levels of the instruments as on April 30, 2025 are as follows:

Instrument	Maturity	Tenure	Yield	Liquidity
TREPS / Repo	Short	Overnight	6	Very High
CP / CD / T Bills	Short	3 months CP*	6.8	High
		3 months CD	6.56	
		1 Year CP*	6.88	

		1 Year CD	6.75	
Central Government securities	Low to High	10 years	6.36	Medium

INTRODUCTION TO EXCHANGE TRADED FUNDS

Exchange Traded Fund (ETF)

ETFs are innovative products that provide exposure to an index or a basket of securities or physical gold that trade on the exchange like a single stock. ETFs have a number of advantages over traditional open-ended Index Funds as they can be bought and sold on the exchange at prices that are usually close to the actual intra-day NAV of the Scheme. ETFs are an innovation to traditional mutual funds as ETFs provide Investors a fund that closely tracks the performance of an index / physical gold with the ability to buy/sell on an intra-day basis. Unlike listed close ended funds, which trade at substantial premiums or more frequently at discounts to NAV, ETFs are structured in a manner which allows to create new Units and Redeem outstanding Units directly with the fund, thereby ensuring that ETFs trade close to their actual NAVs.

ETFs are usually passively managed funds wherein subscription /redemption of units work on the concept of exchange with underlying securities. In other words, Large Investors/institutions can Purchase Units by depositing the underlying Securities with the Fund/AMC and can Redeem by receiving the underlying shares in exchange of Units. Units can also be bought and sold directly on the exchange.

ETFs have all the benefits of indexing such as diversification, low cost and transparency. As ETFs are listed on the exchange, costs of distribution are much lower and the reach is wider. These savings in cost are passed on to the Investors in the form of lower costs. Further more, exchange traded mechanism helps reduce minimal collection, disbursement and other processing charges.

The structure of ETFs is such that it protects long-term Investors from inflows and outflows of short-term Investor. This is because the Fund does not bear extra transaction cost when buying/selling due to frequent Subscriptions and Redemptions.

Tracking Error of ETFs is likely to be low as compared to a normal Index Fund. Due to the creation/redemption of units through the in-kind mechanism the fund can keep lesser funds in cash. Also, time lag between buying/selling units and the underlying shares is much lower.

ETFs are highly flexible and can be used as a tool for gaining instant exposure to the equity markets, equitising cash or for arbitraging between the cash and futures market.

Benefits of ETFs

1. Can be easily bought / sold like any other stock on the exchange through terminals spread across the country.

2. Can be bought/sold anytime during market hours at prices that are expected to be close to actual NAV of the schemes. Thus, investor invests at real-time prices as opposed to end of day prices.
3. No separate form filling for buying / selling units. It is just a phone call to your broker or a click on the net.
4. Ability to put limit orders.
5. Minimum investment for an ETF is one unit.
6. Protects long-term investors from the inflows and outflows of short-term investors.
7. Flexible as it can be used as a tool for gaining instant exposure to the respective equity/gold markets, equitising cash, hedging or for arbitraging between the cash and futures market.
8. Helps in increasing liquidity of underlying cash market.
9. Aids low cost arbitrage between futures and cash market.
10. An investor can get a consolidated view of his investments without adding too many different account statements as the Units issued would be in demat form.

Uses of ETFs

1. Investors with a long-term horizon
2. Allows diversification of portfolio at one shot thereby reducing scrip specific risk at a low cost. Gold ETFs reduce risk of holding physical gold.
3. FIIs, Institutions and Mutual Funds
4. Allows easy asset allocation, hedging and equitizing cash at a low cost.
5. Arbitrageurs
6. Low impact cost to carry out arbitrage between the cash and the futures market.
7. Investors with a shorter term horizon
8. Allows liquidity due to ability to trade during the day and expected to have quotes near NAV during the course of trading day.

Risks of ETFs

1. **Absence of Prior Active Market:** Although the units of ETFs are listed on the Exchange for trading, there can be no assurance that an active secondary market will develop or be maintained.
2. **Lack of Market Liquidity:** Trading in units of ETFs on the Exchange on which it is listed may be halted because of market conditions or for reasons that, in the view of the concerned stock exchange or market regulator, trading in the ETF units is inadvisable. In addition, trading in the units of ETFs is subject to trading halts caused by extraordinary market volatility pursuant to 'circuit filter' rules. There can be no assurance that the requirements of the concerned stock exchange necessary to maintain the listing of the units of ETFs will continue to be met or will remain unchanged.
3. **Units of Exchange Traded Funds May Trade at prices Other than NAV:** Units of ETFs may trade above or below their NAV. The NAV of units of ETFs may fluctuate with changes in the market value of a Scheme's holdings. The trading prices of units of ETF will fluctuate in accordance with changes in their NAVs as well as market supply and demand. However, given that ETFs can be created / redeemed in creation units, directly with the fund, large discounts or premiums to the NAVs will not sustain due to arbitrage possibility available.

Comparison of ETFs v/s Open Ended Funds v/s Close Ended Funds:

	Open Ended Fund	Closed Ended Fund	Exchange Traded Fund
Fund Size	Flexible	Fixed	Flexible
NAV	Daily	Daily	Real time (indicative NAV)
Liquidity provider	Fund itself	Stock Market	Stock Market / Fund itself
Sale price	At NAV plus Load, if any	Significant premium / discount to NAV	Very close to actual NAV of Scheme
Availability	Fund itself	Through Exchange where listed	Through Exchange where listed / Fund itself.
portfolio disclosure	Disclosed monthly	Disclosed monthly	Daily
Intra-day trading	Not possible	Expensive	Possible at low cost

An illustration of the working of ETF is given below:

Procedure for creation of GSEC10YEAR units in Creation Unit size:

The requisite Securities constituting the Portfolio Deposit have to be transferred to the Scheme's Depository Participant account while the Cash Component has to be paid to the Custodian/AMC. On confirmation of the same by the Custodian/AMC, the AMC will create and transfer the equivalent number of Units of the Scheme into the Investor's Depository Participant account and pay/ recover the Cash Component and transaction handling charges, if any.

- **Creation of Units in Cash:** Subscription of GSEC10YEAR Units in Creation Unit Size will be made by payment of requisite amount, as determined by the AMC equivalent to the cost

incurred towards the purchase of predefined basket of securities that represent the underlying index (i.e. portfolio deposit), Cash Component and transaction handling charges, if any, only by means of payment instruction of Real Time Gross Settlement (RTGS) / National Electronic Funds Transfer (NEFT) or Funds Transfer Letter / Transfer Cheque of a bank where the Scheme has a collection account.

- The Creation Unit will be subject to transaction handling charges incurred by the Fund/AMC. Such transaction handling charges shall be recoverable from the transacting Market Makers or Large Investor.
- The Portfolio Deposit and/or Cash Component for units of the Scheme may change from time to time due to changes in the Underlying Index on account of corporate actions and changes to the index constituents.
- The investors are requested to note that the Units of the Scheme will be credited into the Investor's Depository Participant account only on receipt of Cash Component and transaction handling charges, if any.

'Creation Unit size' is fixed number of units of the Scheme, which is exchanged for a basket of securities underlying the designated index called the Portfolio Deposit and a Cash Component equal to the value of 2,50,000 Units of the Scheme and/or subscribed in cash equal to the value of said predefined units of the Scheme. Each Creation Unit size consists of 2,50,000 Units of GSEC10YEAR. Each unit of GSEC10YEAR will be approximately equal to the 1/100th value of the Nifty 8-13 yr G-Sec Index. 'Portfolio Deposit' consists of pre-defined basket of securities that represent the underlying index as announced by AMC from time to time.

Procedure for Redemption in Creation Unit size

The requisite number of Units of the Scheme equivalent to the Creation Unit has to be transferred to the Fund's Depository Participant account and the Cash Component to be paid to the AMC/Custodian.

- On confirmation of the same by the AMC, the AMC will transfer the Portfolio Deposit to the Investor's Depository Participant account and pay/recover the Cash Component and transaction handling charges, if any.
- The Fund allows cash Redemption of the Units of the Scheme in Creation Unit size by Large Investors/Authorized Participant.
- Such Investors shall make Redemption request to the Fund/AMC whereupon the Fund/AMC will arrange to sell underlying portfolio Securities on behalf of the Investor. Accordingly, the sale proceeds of portfolio Securities, after adjusting the Cash Component and transaction handling charges will be remitted to the Investor.
- Redemption proceeds will be sent to Market Makers/Large Investors within 10 Business Days of the date of redemption subject to confirmation with the depository records of the Scheme's DP account.

Note:

1. The Creation Unit size may be changed by the AMC at their discretion and the notice of the same shall be published on AMC's website.
2. Transaction handling charges include brokerage, Securities transaction tax, regulatory charges if any, depository participant charges, uploading charges and such other charges that the mutual fund may have to incur in the course of cash subscription/redemption or accepting the Portfolio Deposit or for giving a portfolio of securities as consideration for a redemption request. Such transaction handling charges shall be recoverable from the transacting Authorized Participant or Large Investor.
3. The Portfolio Deposit and / or Cash Component for **GSEC10YEAR** may change from time to time due to change in NAV and due to any other market factors.
4. The Fund may from time to time change the size of the Creation Unit in order to equate it with marketable lots of the underlying securities.

Procedure for Creation of Units along with example for creation and redemption of units in the ETF

Each Creation Unit consists of 2,50,000 units XYZ ETF tracking XYZ Index. The Creation Unit is made up of 2 components i.e. Portfolio Deposit and Cash Component. The Portfolio Deposit will be determined by the Fund as per the weights of each security in the Underlying Index. The value of this Portfolio Deposit will change due to change in prices during the day. The number of shares of each security that constitute the Portfolio Deposit will remain constant unless there is any corporate action in the Underlying Index or there is a rebalance in the Underlying Index or the fund manager re-align the weights of the securities to reduce the tracking error. The example of Creation Unit is given below for an hypothetical XYZ Index.

Cash component arrived in the following manner:

Value of portfolio deposit (A)	4,129,184.80
NAV as on 30 June 2020	166.0000
Creation Unit	25,000.00
Value of creation unit (B)	4,150,000.00
CASH COMPONENT (C = B-A)	20,815.20

*The above is just an example to illustrate the calculation of cash component. Cash Component (other charges) will vary depending upon the actual charges incurred like Custodial Charges, stamp duty and other incidental charges for creating units.

B. What are the investment restrictions?

The following investment limitations and other restrictions, inter alia, as contained in the Trust Deed and the Regulations apply to the Scheme:

- A mutual fund scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company. Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and TREPS. Provided further that investment within such limit can be made in mortgaged backed securitised debts which are rated not below investment grade by a credit rating agency registered with the Board.

Further, in accordance with Clause 12.8 of SEBI Master Circular Dated June 27, 2024, the Scheme shall not invest more than:

- 10% of its NAV in debt and money market securities rated AAA; or
- 8% of its NAV in debt and money market securities rated AA; or
- 6% of its NAV in debt and money market securities rated A and below issued by a single Issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified above.

Considering the nature of the scheme, investments in such instruments will be permitted upto 5% of its NAV.

- Inter scheme transfers (ISTs) of investments from one scheme to another scheme in the same Mutual Fund shall be allowed only if such transfers are done at the prevailing market price for quoted instruments on spot basis. Explanation -“Spot basis” shall have same meaning as specified by stock exchange for spot transactions. The securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

Pursuant to Clause 12.30 of SEBI Master Circular dated June 27, 2024, ISTs may be allowed in the following scenarios:

- i. for meeting liquidity requirement in a scheme in case of unanticipated redemption pressure
- ii. for Duration/ Issuer/ Sector/ Group rebalancing

No IST of a security shall be done, if there is negative news or rumors in the mainstream media or an alert is generated about the security, based on internal credit risk assessment. The Scheme shall comply with the guidelines for inter-scheme transfers as specified under clause 12.30 of SEBI Master Circular dated June 27, 2024.

- The Scheme may invest in another scheme under the same asset management company or in any other mutual fund without charging any fees, provided the aggregate inter scheme investments made by all Schemes under the same management company or in schemes under the management of any other AMC shall not exceed 5% of NAV of the Mutual Fund.
- The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relative securities and in all cases of sale, deliver the securities and shall in no case put itself in a position whereby it has to make short sale or carry forward transactions or engage in badla finance.
- The Fund shall get the securities purchased or transferred in the name of the Fund on account of the concerned scheme, wherever investments are intended to be of a long-term nature.
- The Scheme shall not make any investment in: a) Any unlisted security of an associate or group company of the Sponsor; or b) Any security issued by way of private placement by an associate or group company of the sponsor; or c) The listed securities of group companies of the Sponsor which is in excess of 25% of the net assets.
- The Scheme shall not invest in a fund of funds scheme.
- The Mutual Fund having an aggregate of securities which are worth Rs.10 crores or more, as on the latest balance sheet date, shall subject to such instructions as may be issued from time to time by SEBI, settle their transactions entered on or after January 15, 1998 only through

dematerialized securities. Further, all transactions in government securities shall be in dematerialized form.

- The mutual fund shall not borrow except to meet temporary liquidity needs of the mutual funds for the purpose of repurchase, redemption of units or payment of interest or IDCW to the unitholders. Provided that the mutual fund shall not borrow more than 20 per cent of the net asset of the scheme and the duration of such a borrowing shall not exceed a period of six months.
- Pursuant to 3.5.4 of SEBI Master Circular dated June 27, 2024 replication of the Index by the Scheme shall be as follows:

- “Short Term” for parking of funds by Mutual Funds shall be treated as a period not exceeding 91 days
- The Scheme shall not invest more than 10% of the net assets in short term deposit(s), of any one scheduled commercial bank including its subsidiaries.
- The Scheme shall not invest in short term deposit of a bank which has invested in that Scheme. AMC shall also ensure that the bank in which a scheme has Short term deposit do not invest in the said scheme until the scheme has Short term deposit with such bank.
- Asset Management Company (AMC) shall not be permitted to charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
- The investments in short term deposits of scheduled commercial banks will be reported to the Trustees along with the reasons for the investment which, inter-alia, would include comparison with the interest rates offered by other scheduled commercial banks. Further, AMC shall ensure that the reasons for such investments are recorded in the manner prescribed in clause 12.23 of SEBI Master Circular dated June 27, 2024.
- The Scheme will comply with SEBI regulations and any other regulations applicable to the investments of Funds from time to time. The Trustee may alter the above restrictions from time

to time to the extent that changes in the regulations may allow. All investment restrictions shall be applicable at the time of making investment.

- The aforesaid limits shall not be applicable to term deposits placed as margins for trading in cash and derivatives market.
- The Scheme will comply with any other regulations applicable to the investments of mutual funds from time to time.
- The cumulative gross exposure through government securities, money market instruments, repos, mutual fund schemes, other permitted securities/assets and such other securities/assets as may be permitted by the SEBI from time to time, subject to regulatory approvals, if any, shall not exceed 100% of the net assets of the scheme

All investment restrictions stated above shall be applicable at the time of making investment.

Apart from the investment restrictions prescribed under SEBI (MF) Regulations, the Fund does not follow any internal norms vis-à-vis limiting exposure to a particular scrip or sector etc.

C. Fundamental Attributes

Following are the Fundamental Attributes of the scheme, in terms of Clause 1.14 of SEBI Master Circular for Mutual Funds dated June 27, 2024:

(i) Type of a scheme

Open ended – Exchange Traded Fund

An Open-Ended Index Exchange Traded Fund tracking Nifty 8-13 yr G-Sec Index. Relatively High Interest Rate Risk and Relatively Low Credit Rate Risk.

- (ii) **Investment Objective:** The investment objective of the Scheme is to provide returns before expenses that correspond to the returns of Nifty 8-13 yr G-Sec Index, subject to tracking errors. There is no assurance that the investment objective of the scheme will be achieved.

- **Main Objective** - Growth
- **Investment pattern**

Asset allocation:

Types of Instruments	Indicative allocation (% of total assets)	
	Minimum	Maximum
Government securities, TREPS on Government Securities, Treasury bills	95	100
Money Market instruments (Treasury Bills, Government Securities and Tri-party Repo on government securities or T-bills Only)	0	5

Rebalancing of deviation due to short term defensive consideration

The above mentioned investment pattern is indicative and subject to the SEBI (MF) Regulations, the asset allocation pattern indicated above may vary from time to time, on account of receipt of maturity proceeds, interest and/or receipt of subscription. As per SEBI Master Circular dated June 27, 2024 the Fund Manager, may deviate from the above investment pattern for short term period on defensive considerations. The same will be rebalanced within 7 Business Days and further action may be taken as specified under SEBI Circulars/ AMFI guidelines issued from time to time.

(iii) Terms of Issue

• Listing:

The Units of the Scheme are listed on the Capital Market Segment of the NSE and BSE.

The AMC engages Market Makers for creating liquidity for the Units of the Scheme on the Stock Exchange(s) so that investors other than Market Makers and Large Investors are able to buy or redeem Units on the Stock Exchange(s) using the services of a stock broker.

The Mutual Fund may at its sole discretion list the Units of the Scheme on any other recognized Stock Exchange(s) at a later date.

The AMC/Trustee reserves the right to delist the Units of the Scheme from a particular stock exchange provided the Units are listed on at least one stock exchange.

An investor can buy/sell Units on a continuous basis on the NSE and BSE on which the Units are listed during the trading hours like any other publicly traded stock at prices which may be close to the NAV of the Scheme. The price of the Units in the market will depend on demand and supply at that point of time. There is no minimum investment, although Units are purchased in round lots of 1.

Redemption: Redemption Price

- **Aggregate fees and expenses charged to the scheme:** For detailed fees and expenses charged to the scheme please refer to section 'Fees and Expenses'.
- **Any safety net or guarantee provided:** There is no assurance OR guarantee of returns.

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations and Clause 1.14.1.4 of SEBI Master Circular for Mutual Funds dated June 27, 2024 the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless:

- SEBI has reviewed and provided its comments on the proposal

- A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- The Unitholders are given an option for a period of at least 30 calendar days to exit at the prevailing Net Asset Value without any exit load.

D. Index methodology

About the Benchmark

The NIFTY 8-13 yr G-Sec Index provides broad representation of the Government of India bonds having maturity of around 10 years. The index aims to capture the performance of the most liquid bonds with maturities between 8-13 yr. One of the key highlights of the index is that it represents the most active tenor of the Indian G-Sec market.

Highlights

- The index has a base date of January 03, 2011 and a base value of 1000
- The index seeks to measure the performance of the most liquid bonds with maturities between 8-13 yrs
- The index is reconstituted on a monthly basis
- The index is calculated and disseminated on real time basis
- The index methodology considers liquidity and issue size to ensure that the NIFTY 8-13 yr G-Sec Index remains investable and replicable.

Methodology

- The index measures the performance of the most liquid bonds with maturities between 8-13 yrs
- The index is computed using the total return methodology
- Top 3 liquid bonds based on turnover during the month shall be eligible to be part of the index.
- The outstanding amount of the bond should be more than Rs. 5,000 crores
- Each bond is assigned weight based on liquidity and outstanding amount
- Liquidity of the bond has a weight of 40% and outstanding amount has weight of 60%.
- Weights of the bond are determined at beginning of the month
- The bond valuation is sourced from the NSE Data and Analytics Limited (FIMMDA valuations prior to 01st August 2018)
- Index composition is reviewed on a monthly basis with a data cut-off of T-9 working days and effective on first working day of the month (T).
- Accrued interest is calculated using 30/360 day count convention
- The prices are sourced from the Clearing Corporation of India Ltd. (CCIL) and NSE G-sec valuations for valuation of the bonds for calculation of real time and end of day index values respectively

FRAMEWORK FOR IDENTIFICATION OF BENCHMARK SECURITY:

The index is reviewed on a monthly basis. Bonds not forming part of top 3 based on turnover shall be eligible for replacement. A new bond shall be included if it meets the replacement criteria.

- Maturity should be more than 9 years
- Should have traded for more than 10 days during the month
- Average daily turnover in month should be 2 times of the existing bond in the index
- No of trades in the month should be 2 times of the existing bond in the index
- If no bond is available for replacement, then existing bond shall continue
- If the residual maturity of a bond forming part of the index falls below 8 yrs, then it shall be excluded from the index.

Index Governance:

A professional team manages all NSE indices. There is a three-tier governance structure comprising the Board of Directors of NSE Indices Limited, the Index Advisory Committee (Equity) and the Index Maintenance Sub-Committee.

E. Principles of incentive structure for market makers

The incentive structure shall be based on the performance of the Market Maker. It shall have recourse to factors such as trading volumes, bid-ask spread in units of ETFs and such other information as may be required to formalize performance-based incentive structure or a fixed monthly compensation at the discretion of the AMC and is to be decided between the AMC and the Market Maker. The incentives, if any, shall be charged to the respective scheme within the maximum permissible limit of TER. A transparent incentive structure for the MMs shall be put in place, and the incentives shall, *inter alia*, be linked to performance of the MMs in terms of generating liquidity in units of ETFs.

<p>The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.</p>	<p>All units can be reissued without any limit by the Scheme.</p>
<p>Restrictions, if any, on the right to freely retain or dispose of units being offered.</p>	<p>As the units of the Scheme are mandatorily to be held in demat mode, the same are freely transferable. Further, the unit holders will have to approach their DP for transfer, transmission, pledge related requests etc. which shall be done by the DP in accordance with the procedural requirements laid down by the Depositories, viz. NSDL/ CDSL and/or in accordance with the provisions laid under the Depositories Act, 1996 and the Regulations thereunder.</p> <p>RIGHT TO RESTRICT REDEMPTION AND / OR SUSPEND REDEMPTION OF THE UNITS:</p> <p>The Fund at its sole discretion reserves the right to restrict Redemption (including switchout) of the Units (including Plan /Option) of the Scheme of the Fund upon occurrence of the below mentioned events for a period not exceeding ten (10) working days in any ninety (90) days period subject to approval of the Board of Directors of the AMC and the Trustee. The restriction on Redemption (including switch-out) shall be applicable where the Redemption (including switch-out) request is for a value above Rs. 2,00,000/- (Rupees Two Lakhs). Further, no restriction shall be applicable to the Redemption / switch-out request upto Rs. 2,00,000/- (Rupees Two Lakhs). It is further clarified that, in case of redemption request beyond Rs. 2,00,000/- (Rupees Two Lakhs), no restriction shall be applicable on first Rs. 2,00,000/- (Rupees Two Lakhs).</p> <p>The Trustee / AMC reserves the right to restrict Redemption or suspend Redemption of the Units in the Scheme of the Fund</p>

	<p>on account of circumstances leading to a systemic crisis or event(s) that severely constrict market liquidity or the efficient functioning of the markets. A list of such circumstances under which the restriction on Redemption or suspension of Redemption of the Units in the Scheme of the Fund may be imposed are as follows:</p> <ol style="list-style-type: none"> 1. Liquidity issues- when market at large becomes illiquid affecting almost all securities rather than any issuer specific security; or 2. Market failures / Exchange closures; or 3. Operational issues; or 4. If so directed by SEBI. <p>It is clarified that since the occurrence of the abovementioned eventualities have the ability to impact the overall market and liquidity situation, the same may result in exceptionally large number of Redemption requests being made and in such a situation the indicative timelines (i.e. within 3-4 Business Days) mentioned by the Fund in the scheme offering documents, for processing of requests for Redemption may not be applicable.</p>
<p>Cut off timing for subscriptions/ redemptions/ switches</p> <p>This is the time before which your application (complete in all respects) should reach the official points of acceptance.</p>	<p>In case of Purchase / Redemption directly with Mutual Fund (By Market Makers and Large Investors):</p> <p>DIRECTLY FROM THE FUND Direct transaction with AMCs shall be facilitated for investors only for transactions above a specified threshold. In this regard, to begin with any order placed for redemption or subscription directly with the AMC must be of greater than INR 25 Cr. The aforesaid threshold shall not be applicable for Market Makers.</p> <p>All direct transactions in units of ETFs by Market Makers or other eligible investors (as mentioned above) with AMCs shall be at intra-day NAV based on the actual execution price of the underlying portfolio.</p> <p>The requirement of “cut-off” timing shall not be applicable for direct transaction with AMCs in ETFs by Market Makers and other eligible investors.</p> <p>For Redemption of units directly with the Mutual Fund (other than Market Makers and Large Investors): Investors can directly approach the AMC for redemption of units of ETF, for transaction of upto INR 25 Cr. without any exit load, in case of the following scenarios:</p>

	<p>i. Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or</p> <p>ii. No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or</p> <p>iii. Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days.</p> <p>In case of the above scenarios, applications received from investors for redemption up to 3.00 p.m. on any trading day, shall be processed by the AMC at the closing NAV of the day. Such instances shall be tracked by the AMC on an ongoing basis and in case any of the above mentioned scenario arises, the same shall be disclosed on the website of the Mutual Fund.</p> <p>Settlement of Purchase/Sale of Units of the Scheme on NSE/ BSE</p> <p>Buying/Selling of Units of the Scheme on NSE/ BSE is just like buying/selling any other normal listed security. If an investor has bought Units, an investor has to pay the purchase amount to the broker/sub-broker such that the amount paid is realised before the funds pay-in day of the settlement cycle on the Stock Exchange(s). If an investor has sold Units, an investor has to deliver the Units to the broker/sub-broker before the securities pay- in day of the settlement cycle on the Stock Exchange(s). The Units (in the case of Units bought) and the funds (in the case of Units sold) are paid out to the broker on the pay-out day of the settlement cycle on the Stock Exchange(s). The Stock Exchange(s) regulations stipulate that the trading member should pay the money or Units to the investor within 24 hours of the pay-out.</p> <p>If an investor has bought Units, he should give standing instructions for 'Delivery-In' to his /her/its DP for accepting Units in his/her/its beneficiary account. An investor should give the details of his/her beneficiary account and the DP-ID of his/her/its DP to his/ her/its trading member. The trading member will transfer the Units directly to his/her/ its beneficiary account on receipt of the same from NSE's/ BSE's Clearing Corporation.</p> <p>An investor who has sold Units should instruct his/her/its Depository Participant (DP) to give 'Delivery Out' instructions to transfer the Units from his/her/its beneficiary account to the Pool Account of his/her/its trading member through whom he/she/it have sold the Units. The details of the Pool A/C (CM-BP-ID) of his/her trading member to which the</p>

	<p>Units are to be transferred, Unit quantity etc. should be mentioned in the Delivery Out instructions given by him/her to the DP. The instructions should be given well before the prescribed securities pay-in day. SEBI has advised that the Delivery Out instructions should be given at least 24 hours prior to the cut-off time for the prescribed securities pay-in to avoid any rejection of instructions due to data entry errors, network problems, etc.</p>
<p>Minimum amount for purchase/redemption/switches</p>	<p>ON THE EXCHANGE</p> <p>Investors can subscribe (buy) and redeem (sell) Units on a continuous basis on the NSE/ BSE on which the Units are listed. Subscriptions made through Stock Exchanges will be made by specifying the number of Units to be subscribed and not the amount to be invested. On the Stock Exchange(s), the Units of the scheme can be purchased/sold in minimum lot of 1 (one) Unit and in multiples thereof.</p> <p>DIRECTLY FROM THE FUND</p> <p>The Scheme offers for subscriptions/redemptions only for Market Makers in ‘Creation Unit Size’ on all Business Days at a price determined on the basis of approximately indicative NAV based prices (along with applicable charges and execution variations) during the Ongoing Offer for applications directly received at AMC. Large investors can subscribe/redeem directly with the AMC for an amount greater than Rs. 25 crores. Additionally, the difference in the value of portfolio and cost of purchase/sale of Portfolio Deposit on the Exchange for creation/redemption of scheme Units including the Cash Component and transaction handling charges, if any, will have to be borne by the Market Makers /Large Investor.</p> <p>The Fund creates/redeems Units of the scheme in large size known as “Creation Unit Size”. Each “Creation Unit” consists of 2,50,000 Units of the scheme. The value of the “Creation Unit” is the “Portfolio Deposit” and a “Cash Component” which will be exchanged for 2,50,000 Units of the scheme and/or subscribed in cash equal to the value of said predefined units of the Scheme.</p> <p>The Portfolio Deposit and Cash Component for the Scheme may change from time to time due to change in NAV.</p> <p>The subscription/redemption of Units of GSEC10YEAR in Creation Unit Size will be allowed both by means of exchange of Portfolio Deposit and by Cash (i.e. payments shall be made</p>

	<p>only by means of payment instruction of Real Time Gross Settlement (RTGS) / National Electronic Funds Transfer (NEFT) or Funds Transfer Letter/ Transfer Cheque of a bank where the Scheme has a collection account).</p> <p>The Fund may from time to time change the size of the Creation Unit in order to equate it with marketable lots of the underlying instruments.</p>
Accounts Statements	<p>The AMC shall send an allotment confirmation specifying the units allotted by way of email and/or SMS within 5 working days of receipt of valid application/transaction to the Unit holders registered e-mail address and/ or mobile number (whether units are held in demat mode or in account statement form).</p> <p>A Consolidated Account Statement (CAS) detailing all the transactions across all mutual funds (including transaction charges paid to the distributor) and holding at the end of the month shall be sent to the Unit holders in whose folio(s) transaction(s) have taken place during the month by email on or before 12th of the succeeding month who have opted for e-CAS and on or before 15th day of the succeeding month to investors who have opted for delivery via physical mode.</p> <p>Half-yearly CAS shall be issued at the end of every six months (i.e. September/ March) on or before 18th day of succeeding month who have opted for e-CAS and on or before 21st day of the succeeding month to investors who have opted for delivery via physical mode, to all investors providing the prescribed details across all schemes of mutual funds and securities held in dematerialized form across demat accounts, if applicable For further details, refer SAI.</p>

O. 1226 (E) and G.S.R 226(E) dated March 30, 2020 issued by Department of Revenue, Ministry of Finance, Government of India, read with Part I of Chapter IV of Notification dated February 21, 2019 issued by Legislative Department, Ministry of Law and Justice, Government of India on the Finance Act, 2019, a stamp duty @ 0.005% of the transaction value shall be levied on applicable mutual fund transactions.

Accordingly, pursuant to levy of stamp duty, the number of units allotted on purchase transactions (including dividend reinvestment) to the unitholders would be reduced to that extent

For details refer in Statement of Additional Information .

D. Associate Transactions

Please refer to Statement of Additional Information (SAI)

E. Taxation

For details on taxation please refer to the clause on Taxation in the SAI apart from the following:

Rates of tax and tax deducted at source (TDS) under the Act for Capital Gains from transfer of units of Debt and Money Market Mutual Funds:

Type of Capital Gain	Income Tax Rates		TDS Rates	
	Resident/ NRI/ Other non-residents	PIO/ FII	Resident	NRI/OCBs/ FII & others
+ Short Term Capital Gain (redemption before completing three years of holding for sale prior to 23 July 2024 and two years of holding for sale on or after 23 July 2024)	Normal rates of tax applicable to the assessee	30%	Nil	30% for Non-resident other than corporates 40% (till 31 March 2024)/ 35% (from 1 April 2024) for non-residents corporates

++ Long Term Capital Gain (applicable only if units are acquired prior to 1 April 2023, irrespective of the date of sale)	For sale made prior to 23 July 2024 - 20%# For sale made on or after 23 July 2024 - 12.5%*	10%*	Nil	10% / 12.5%
---	---	------	-----	-------------

*without indexation benefit

+ Units acquired post 1 April 2023 would be considered as units sold of a Specified Mutual Fund (SMF) as mentioned below and hence, any gains arising on transfer of such units would be deemed to be short-term capital gains. However, with respect to units acquired prior to 1 April 2023, gains arising on transfer of such units would not be considered as units sold of a Specified Mutual Fund (SMF) as mentioned below and would continue to be governed by the normal provisions (i.e., long-term or short-term, depending upon period of holding) as mentioned in the table above.

++ As per the amended Finance Bill 2023, a Specified Mutual Fund (SMF) acquired on or after April 1, 2023, shall be deemed to be short-term capital asset and hence, the gains arising on such transfer will be regarded as short-term capital gains (STCG) irrespective of period of holding. SMF is a Mutual Fund holding less than 35% of its total investment in equity shares of domestic companies. Accordingly, such Mutual Funds holding less than 35% of its total investment in equity shares as well as Fund of Funds shall fall within the ambit of SMF and the gains arising on its transfer will be regarded as STCG and would be taxable at the rate of 15% (where transfer takes place before 23 July 2024) or 20% (where transfer takes place on or after 23 July 2024) (plus applicable surcharge and cess) and no indexation benefit will be available on transfer of such investments. However, effective 01 April 2025, the definition of ‘Specified Mutual Fund’ has been proposed to be amended as under:

- A mutual fund wherein more than 65% of total proceeds are invested in the debt and money market instruments; or
- Fund which invests 65% or more of its total proceeds in units of a fund referred in clause (a) above, calculated basis the annual average of the daily closing figures

As a result of the proposed amendment, capital gains on sale of mutual Funds investing more than 65% in debt and money market instruments or Fund which invests 65% or more of its total proceeds in units of such fund (i.e., Debt and Money Market Mutual Funds) would continue to be deemed to be short -term capital gains.

For further details on taxation please refer to the clauses on Taxation in SAI.
